Announcement

THE UNITED STATES DAILY has now been published every working day since March 4, 1926. It is standing the acid test of its readers. It has subscribers in every State and Territory in the Union, in every United States possession, in every dependency, in every country in the world.

"All the FACTS—No Editorial Opinion"

The United States Daily publishes the news and information about the activities of the Federal Government as it functions in Washington, throughout the country, and all over the world. The Daily presents ONLY the facts. It has NO editorial opinion or bias whatsoever.

On every page of The Daily appears this pledge:

"Authorized Statements Only Are Presented Herein, Being Published Without Comment By The United States Daily."

The Daily News Summary

Through the extraordinary News Summary in every issue of The United States Daily we point you straight to the page and column in each issue which contains the news item, ruling, decision, or other information which affects your personal or professional or business interests. At the same time, we give you IN A SINGLE SENTENCE, the gist of the information that appears in full text within the day's issue of the paper.

The Weekly Summary and Index

All of the Government information, rulings, and decisions of the past week will be found, cross-referenced and summarized, in an eight-page loose-leaf index, size 9 by 11 inches, which comes to subscribers enclosed with each Monday's issue. No extra charge.

The Inquiry Division

There probably is no legitimate question that cannot be answered by one or several of the Departments of the Government at Washington. It is the work of the eleven Service Bureaus of The United States Daily to make this vast store of information usefully available to subscribers of this publication without charge. These eleven Service Bureaus are: Telegraphic Information Service, Public Documents Service, Commercial Inquiries Bureau, Tax Decisions Service, Legislative Inquiries Bureau, Historical Inquiries Bureau, Patent, Trade Mark, and Copyright Decisions Service, General Statistics Bureau, Back Copies Service, Legal Decisions Service, Photostat Service.

No matter what the subject is, on which you may now or at any time want information, you are invited (if you are a subscriber to The United States Daily) to ask the Inquiry Division, which will undertake to get in touch with the various Government bureaus affected and supply you with the information you need.

Eleven Service Bureaus

in the Inquiry Division of The United States Daily

(Available to Subscribers Without Charge)

Do you know what they are?
Do you know what they'll do for you?
Are you using them?

Telegraphic Information Service

When emergencies arise we are glad to answer your inquiry by telegraph if you so direct, supplementing that answer if necessary by further information and documents sent you by mail. Imagine how valuable such a service might be to you in an emergency!

Public Documents Service

Perhaps one of the three hundred Government divisions has issued a bulletin or report on the very problem now troubling you. If so, you should have it. Tell us specifically what information you need, and we will undertake to locate and send you the Government documents which give you the answer.

Every day there is in The United States Daily a list of new Government publications just issued. Tell our Public Documents Service which of them you want and we will see that you get them.

These reports and books are sold by the Superintendent of Documents of the Government at Washington, but to get them you must send cash in advance in money order or currency form. There is always the possibility of delay.

This is where our Public Documents Service helps you. By means of a highly developed courier system, we can get the proper documents for you and mail them to you immediately. Instead of asking you to send money for them in advance, we will get them, pay for them, mail them to you, and bill you what they cost.

Legislative Inquiries Bureau

Do you want to get a copy of a Federal law or bill? Would you like the date of enactment of a particular piece of Federal legislation? Ask the Legislative Inquiries Bureau of The United States Daily. As a subscriber, you are entitled to this service without charge.

Photostat Service

Occasionally a public document is out of print—our Photostat Service then steps in and photographs it for you at cost. If you ask for a certain piece of information or a decision which appeared in a former issue of The United States Daily, and that issue is no longer in stock in Washington, our Photostat Service will supply you with the item at low cost, photographically reproduced.

Patent, Trade Mark and Copyright Decisions Service

The United States Daily in its pages covers Patent Office decisions and rulings more completely than it has ever done before. In this, therefore, we can again be of service. Our patent, trade mark, and copyright decisions files are open to you through this service—ask about any decision or ruling and we will get it for you. If you desire the services of an attorney for actual searches in the Patent Office or in the Office of the Register of Copyrights, we shall be glad to suggest several. The services of this division are limited strictly by the Patent Office.

Commercial Inquiries Bureau

There are almost as many kinds of questions asked by business firms as there are business firms themselves. Manufacturing, producing, marketing, advertising, exporting, importing, distributing, wholesaling, retailing, consuming—questions from every branch of business. The Commercial Inquiries Bureau of The United States Daily offers to act as your contact in touch with the proper Government office for the answer to your question. No matter what it is, let us have it, and the chances are good that the answer can promptly be found for you.

Tax Decisions Service

Wherever your question on the subject of taxes does not require legal services, we can give you the answer. If you want to know about some previously rendered tax decision that might affect your interests, ask us. If you want to learn the status of your income tax report, ask us to tell you what papers to fill out, send them to us with your power of attorney, and we will obtain for you the information you seek.

General Statistics Bureau

When one remembers that there are more than three hundred divisions in the Government one realizes the valuable collections of statistics available in their active files, and in their archives. It is the work of this Bureau to consult with the proper Government divisions to get for you the answers to your requests for statistics.

Historical Inquiries Bureau

It is little known that Washington holds the greatest amount of authoritative historical information available in America. This Bureau will be delighted to receive your questions on historical subjects and obtain from the proper Government sources the answers thereto.

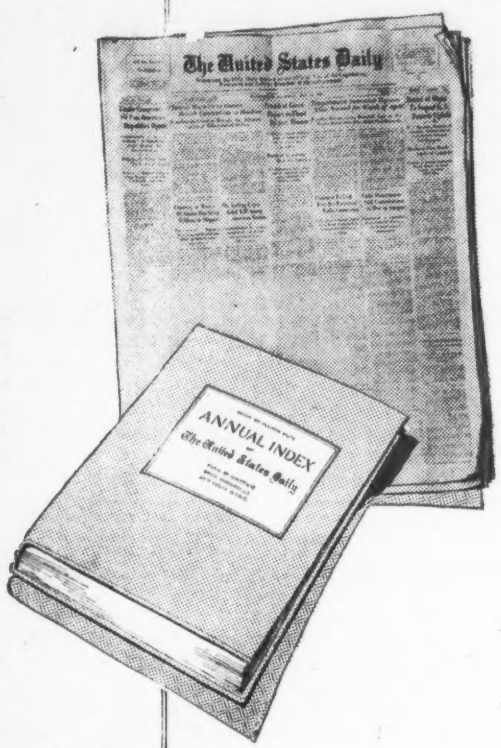
Legal Decisions Service

The United States Daily publishes all Supreme Court decisions in full, with dissenting opinions, during the same week handed down. It publishes Federal decisions from all Federal courts on almost every conceivable subject—those decisions involving new principles are selected and printed in this paper. The Legal Decisions Service will supply you with a copy of any decision which has appeared in our pages. If we do not have an extra copy of the decision on hand we can send you a photostat of it at cost

Back Copies Service

Some subscribers keep their copies of The United States Daily. Others don't. In the latter case we are glad to comply with any reasonable request for back copies, without charge. If our extra-copy file for a particular issue has been exhausted, we will be glad to supply a photostat of any article or page at cost. You may at any time need this service. Most publications make a charge to subscribers for back copies, because they are valuable, but we don't.

No charge is made to subscribers for the services of the above eleven service bureaus of the Inquiry Division of The United States Daily. Their assistance is, however, available ONLY to subscribers.



Back Copies Available

BACK COPIES of any single issue of The United States Daily mentioned in this Index may be obtained without charge by subscribers only.

If our extra-copy file for a particular issue has been exhausted, we will be glad to supply a photostat of any article or page at cost. Prices listed herewith.

HOW TO USE THE ANNUAL INDEX

Anticipating the Annual Index, the pages of The United Daily have been numbered consecutively from the initial issue of March 4, 1926. For example, the first page of the 16-page first issue, March 4, 1926, is titled "Yearly Index 1" and the last page of that issue is titled "Yearly Index 16." The first page of the issue of March 5, 1926, is titled "Yearly Index 17" and the last page of that issue is titled "Yearly Index 32." This consecutive numbering formula was followed throughout the year.

In the Annual Index, therefore, references are made to the "Yearly Index" numbers on pages of The United States Daily. In each entry the "Yearly Index" page is given, followed by a colon and the number of the column. The columns are understood to be numbered 1 to 7, from left to right; e. g., 2107:4 refers to the fourth column of the "Yearly Index" page 2107 of The United States Daily, which was Page 3 in the Issue of August 24, 1926.

The "Yearly Index" pages appear in the issues of The United States Daily as follows:

1926			
March	1 to 384	October	2577 to 2954
April	385 to 800	November	2955 to 3354
May	801 to 1232	December	3355 to 3770
June	1233 to 1624	1927	
July	1625 to 1956	January	3771 to 4114
August	1957 to 2268	February	4115 to 4406
September	2269 to 2576	To March 3	4407 to 4448
